DELETE USER

The DELETE USER command removes a user ID entry from the user ID table.

Syntax: `DELete USEr NAMe=id`

Arguments: `NAMe` = - The user name to be deleted.

Example:

```
IPN237I delete user,name=guest
IPN581I User GUEST has been deleted.
```

Notes:
- If there are duplicate entries, the first entry that was created is deleted.
