

QUERY DUMPOPTIONS

The QUERY DUMPOPTIONS command shows the current setting for how dumps will be formatted.

Syntax: Query DUMPOptions [,SYSLst]

Arguments: SYSLst - If specified, the results of this request are sent to SYSLST. If omitted, the results are displayed on the console.

Example:

```
IPN237I query dumpoptions
IPN818I Dump Options for File I/O set to CSI format
```

Related Commands: DUMPOPTION - Control the format of TCP/IP-initiated storage dumps.
